

Class Rules

Know the
class
rules

1.	Once you start your chosen lesson, give the NETOL teacher your full attention.
2.	Limit the background noise so you can fully hear the NETOL teacher during the lesson.
3.	It is very important that you participate during the lesson. Do not hesitate to speak out loud, to repeat words and phrases after the teacher and to read activities loudly. This will help you improve your English speaking skills.
4.	Have a pencil, an eraser and a notebook next to you during the lesson, so you can practice your English writing skills.
5.	Complete each activity that the teacher gives you during the video lesson. Not completing activities will not give you the full NETOL online learning experience.
6.	Take breaks between the video lesson and class activities to stand, stretch, drink a glass of water, or have a snack.
7.	Get to know the NETOL handouts that you will receive during the lessons. These handouts will strengthen your knowledge of what was learned.
8.	Look up words that you do not know in the dictionary. Getting to know words that you do not know will help build your English vocabulary.
9.	You will get to complete a test for each NETOL topic. The test will be either a listening, speaking, reading or writing test.
10.	After you have completed a test, you will get to watch a feedback video where a NETOL teacher will provide you with the answers to the test. This is where you will be able to compare your answers to the teacher's answers.
11.	Once you have fully completed a lesson on NETOL, you can always go back and reread or listen again to the material that you learned. This will help you strengthen your reading, listening and comprehension skills.
12.	Have fun and enjoy learning English with NETOL!
